

# ATTACK

## ENZYME PRESPRAY AND DEGREASER

**ATTACK** is a fast acting concentrated carpet prespray for heavily soiled areas. It is also a highly effective degreaser and deodorant. As a carpet prespray it is designed to remove greasy protein stains in heavy traffic areas, especially restaurants and kitchens. It is ideal for use in hotels, hospitals, nursing homes, schools, and industrial plants. It is a very effective deodorizer of carpets during and after the cleaning process. Formulated with new generation surfactants **ATTACK** combines the superior cleaning of the new biodegradable, environmentally safe cleaners with the digestive powers of enzymes. **ATTACK** rapidly loosens tough water-based stains while it emulsifies grease and oils for easy extraction. safe for use in most extraction cleaners and shampoo.

**ATTACK** is ideal on clothing as a prespray before machine washing. Especially for stains caused by blood, wine, grass and other protein stains leaving behind a fresh, pleasant smelling fragrance. Will not affect cleaning ability and detergency of cleaners.

### DIRECTIONS:

Always test on an inconspicuous area first. Apply with a sprayer, brush, or cloth, allow to penetrate for at least five minutes. Begin extraction or shampoo process. Apply full strength directly to laundry before machine washing. all other surface dilute as follows:

* <b>TOUGH CLEANING</b>	<b>1:1 to 1:20</b>
* <b>MEDIUM CLEANING</b>	<b>1:20 to 1:40</b>
* <b>LIGHT CLEANING</b>	<b>1:40 to 1:100</b>
