

CARPET EXTRACTOR-N

CARPET EXTRACTOR & ENCAPSULATOR

CARPET EXTRACTOR-N is designed as a multi-purpose carpet cleaner. It serves as a stain remover, encapsulator and extractor all in one product. It is a uniquely stabilized specialty oxidant, specifically formulated to be used as a cleaner, degreaser, and deodorizer. Its stable oxygenated cleaning component provides a chlorine-free alternative for cleaning and stain removal. The action of cleaning micro-bubbles, coupled with added encapsulators is particularly effective at lifting and removing difficult soils from a variety of carpets and fabrics.

CARPET EXTRACTOR-N is a highly concentrated, neutral detergent designed to match or exceed the performance levels of most low alkaline products on the market. It can be used with both portable and truck mounted equipment.

DIRECTIONS:

This product is safe for most carpets and can be used on upholstery fabrics, except Haitian Cotton. It is a neutral pH cleaner. Test fabric in small hidden area for shrinkage and color fastness before using on larger area. Prior to extractor operation, carpet should be dry vacuumed to remove as much dirt and residue as possible. Add water to the dispenser tank, use hot or cold water depending on manufacturers' directions. Add 6 to 10 ounces of per one gallon of water. Always read and follow directions for cleaning of carpet and heed machine instructions. For heavily soiled carpets repeat cleaning without first allowing carpet to dry completely.

CAUTION:

EYE AND SKIN IRRITANT

In case of contact with eyes or skin, flush with water for 15 minutes. If irritation persists seek medical attention. If swallowed drink large quantities of water. Get medical attention. Consult MSDS for further information.

Please Follow Good Safety
Practices
