

KEM-100 DEFOAMER

KEM-100 is a concentrated silicone emulsion formulated to prevent foam buildup and suppress existing foam during carpet cleaning. It controls foam caused by soils, soap and detergents during the carpet cleaning operation. It quickly eliminates suds in all types of recovery systems to provide maximum equipment performance. It is designed to be used in carpet extractors, wet vacuums, bonnet cleaning and automatic floor scrubbers. It is safe for use on most carpets and it is non-corrosive to equipment.

KEM-100 is a non-hazardous neutral liquid that can be sprayed directly into the recovery tanks and the recovery hose. Do not add this product directly to the cleaning solution or to the solution tank. Residue left behind will allow for quicker resoiling.

- * **CONCENTRATED FORMULA**
- * **PREVENTS FOAM BUILDUP**
- * **REDUCES EQUIPMENT BREAKDOWN**
- * **NON-HAZARDOUS**

DIRECTIONS:
SHAKE WELL BEFORE USE

Before starting cleaning operations pour full strength, approximately 2 ounces in vacuum hose. Add approximately ½ ounce per gallon capacity in the return tank. If experiencing excessive foaming spray defoamer directly to the return tanks as needed to knockdown the foam. For automatic floor scrubbers add 1 ounce for each gallon capacity of the recovery tank.

CAUTION:
AVOID CONTACT WITH EYES OR SKIN
In case of contact with eyes or skin, flush with water for 15 minutes. If irritation persists seek medical attention. If swallowed drink large quantities of water. Get medical attention. Consult MSDS for further information.

Please Follow Good Safety
Practices

**KEEP THIS AND ALL CLEANING PRODUCTS
OUT OF THE REACH OF CHILDREN**
