

PROCAP

CARPET ENCAPSULATOR

PROCAP is designed for use with carpet bonnet equipment. It is a uniquely stabilized specialty oxidant, specifically formulated to be used as a cleaner, spotter and deodorizer. Its stable oxygenated cleaning component provides a chlorine-free alternative for cleaning and stain removal. The action of cleaning micro-bubbles, coupled with added encapsulators is particularly effective at lifting and removing difficult soils from a variety of carpets and fabrics. **PROCAP** is a highly concentrated, heavy duty neutral detergent to match or exceed the performance of most neutral products on the market. **PROCAP** is formulated with oxidizers, detergents, encapsulators and emulsifiers to allow fast penetration and suspension of the soil for easy extraction, while leaving behind a protective barrier and clean fresh fragrance.

DIRECTIONS:

PROCAP is safe for carpets that will not shrink or fade. Always test fabric in a small hidden area for shrinkage and color fastness before using on a larger area. Prior to bonnet cleaning, carpet should be dry vacuumed to remove as much as the dirt as possible. Add water to dispenser tank, use hot or cold water depending on manufacturer's directions. Add 4 - 8 ounces of product per gallon of water. Always read and follow directions for cleaning of carpet and heed machine instructions.

CAUTION:
EYE AND SKIN IRRITANT
Consult MSDS for further information.

Please Follow Good Safety
Practices

**KEEP THIS AND ALL CLEANING PRODUCTS
OUT OF THE REACH OF CHILDREN**
