

# X-TRACT

## CARPET EXTRACTION CLEANER

**X-TRACT** is designed for use with carpet extractor equipment. This process cleans, rinses, and vacuums at the same time so that dirt and residue are removed from carpet, and carpet will stay cleaner longer. It performs well in hot, cold and hard water conditions.

**X-TRACT** is a highly concentrated, heavy duty alkaline detergent to match or exceed the performance levels of most alkaline products on the market. It can be used with both portable and truck mounted equipment.

**X-TRACT** is formulated with detergents, synthetic wetting agents, solvents, water softeners, and emulsifiers to allow fast penetration and suspension of the soil for easy extraction, while leaving behind a clean fresh fragrance. Not for use on stain resistant carpets.

### DIRECTIONS FOR USE:

**X-TRACT** is safe for carpets that will not shrink or fade. Always test fabric in small hidden area for shrinkage and color fastness before using on a larger area. Prior to extraction operation, carpet should be dry vacuumed to remove as much of the dirt as possible. Add water to dispenser tank, use hot or cold water depending on manufacturer's directions. Add 2 ounces of product per gallon of water. Always read and follow directions for cleaning of carpet and heed machine instructions. For heavily soiled carpets repeat cleaning without first allowing product to dry completely.

### CAUTION:

#### EYE AND SKIN IRRITANT

In case of contact with eyes or skin, flush with water for 15 minutes. If irritation persists seek medical attention. If swallowed drink large quantities of water. Get medical attention. Consult MSDS for further information.

Please Follow Good Safety  
Practices

**KEEP THIS AND ALL CLEANING PRODUCTS  
OUT OF THE REACH OF CHILDREN**
